

# Desert Drops: How low can you flow?

## Instructions

(For 2 to 4 players)

1. Cut and fold the FORTUNE-TELLER in the back of this booklet.
  2. Cut out and color "Water Drop" game pieces in back of booklet.
  3. To begin, pick an outside square of another player's fortune-teller and have them open it that number of letters. (Example: P-E-T-E= 4). Next, choose a number from inside and open it that number of times. Finally, pick another number and lift the flap behind it to find out your next move.
  4. Take turns. The first person to reach the finish joins Doc Pete, the Drops, and others for an aquifer party!
- (Up arrow) = Wasted water! You are pumped up to the square above.
  - (Down arrow) = Drop down through the cracks to the square below.
  - Players may not pick the same number twice in a row.
  - For more fun: Trade fortune-tellers with other players before the next game!
